OVERVIEW

Certified Marine Computing Solutions

Winmate's ECDIS marine panel pcs are certified to meet DNV-CG-0339, IEC60945, and IACS-E10 standards, ensuring compliance with international marine regulations. Rigorous in-house testing guarantees they perform reliably in harsh maritime environments.

Effortless Control with Marine Panel PC

To enhance operator convenience in industrial settings, Winmate's marine ECDIS panel pc series has optimized the six key OSD button for seamless access to DAY/DUSK/Night Mode. This improvement simplifies operation, removing complexity and allowing quick access to the central control on the front panel.

Precision Color Calibration for Marine Navigation

Winmate calibrates color settings according to the IEC 61174 ECDIS Standard, ensuring accurate color representation. This meticulous process guarantees the reliability of color panel pc, which is crucial for maritime navigation.

Sleek and Sturdy Marine Workstations

The true-flat, edge-to-edge design provides a slim and elegant appearance, surpassing standard industrial marine computers with rugged construction, fanless operation, powerful performance, and flexible mounting options.

Comprehensive Marine Connectivity

Extensive connectivity options include Ethernet LAN, USB2.0, USB3.0, HDMI, and optional 4-channel isolated digital input and output. The optional COM ports (RS232/422/485) adhere to the NMEA 0183 standard and are software switchable.
